

A close-up photograph of a metal transfer tray, likely made of stainless steel, with a series of parallel ridges. The tray is illuminated with a blue light, suggesting UV-C disinfection. The background is dark, and the tray is set within a larger metal frame.

eos[®]
Transfer Tray
P7810
with UV-C disinfection

eos® Transfer Tray P7810 is a modern UV transfer tray for hygienic handover of items. Its compact lightweight design makes it extremely flexible and easy to place on counters or other suitable locations. No installation required. The handover process takes only seconds, with approximately all viruses and bacteria eliminated by the highly efficient UV lamps. The intensity of the cleaning process is adjustable. Integrated security systems ensure safe operation that is not harmful to health.

TECHNICAL DATA

- Width approx. 580 mm
- Depth approx. 330 mm
- Height approx. 280 mm
- Weight approx. 15 kg
- Lethal Dosis (LD) 90
- Power supply 230V AC/50Hz

ADVANTAGES FOR OPERATOR

- Lightweight design for flexible placement
- No installation required (Plug & Play)
- Cleaning and handover process in less than 10 seconds
- Eliminates approximately all viruses and bacteria
- Added value for operators and customers through safe and hygienic handover process
- Cost reduction due to reduced use of disinfectants
- Fewer employee absences due to illness as a result of lower risk of infection
- Highest security standards for operators and customers
- 360° UV radiation and cleaning
- No use of chemicals
- Flexibly adjustable disinfection rate

» INTERESTING FACTS

The eos® P7810 is the result of combining the know-how of SITEC GmbH - Security systems and Peschl Ultraviolet GmbH. As a specialist in security technology for e.g. banks, embassies and authorities, SITEC GmbH is responsible for the construction, design and production of the UV transfer tray, while Peschl Ultraviolet GmbH, with its expertise in ultraviolet solutions for industrial-, medical- and environmental-technology, is responsible for the UV lamps and everything related.
